

HANSEN[™]

Easy Fit Compression Fittings

Fully Compatible

Hansen *Easy Fit* Compression Fittings are fully compatible with all other Hansen fitting ranges.

Standards & Approvals

Hansen *Easy Fit* Compression Fittings in sizes 16mm to 110mm have achieved the esteemed WaterMark Certification for use in plumbing & drainage installations. Certification No: WMKA21978

Easy to Install

1. Cut the pipe with pipe cutters, knife or saw. Ensure a square cut of pipe ends. Clean burrs from pipe ends. Keep the pipe end clean and as free of scratches and imperfections as possible.

2. Undo the nut to the last thread, do not remove nut from the body.

3. Insert the pipe into the fitting through the Nut, White Grip Ring & Thrust Ring until it meets resistance at the O-Ring. Give the pipe a firm push past the O-Ring all the way until it hits the final stop point.

4. Firmly hand tighten the nut. Use a pair of poly grips for a further half turn past hand tight for final tightening on 40mm fittings and greater.

The hydraulic seal is created when the pipe passes the O-ring. Tightening the nut is to achieve pull out resistance of the pipe.

Best Installed Value

In the late 1970's Bert Hansen developed a range of easy to use "cold fit pipe fittings" that revolutionised the way Kiwi farmers joined pipe.

Adding to the *Easy Fit* range of pipe fittings, Hansen introduces the new *Easy Fit* Compression Fittings designed specifically for joining Medium Density polyethylene pipe. Building on 50 years experience in the manufacturing of pipe fittings and valves, the sleek, compact design uses only the very best materials to withstand the harshest weather conditions.

Hansen Products knows the importance that pipe fittings play in the performance and control of fluid delivery, flow and pressure within a pipe system. This has seen Hansen Products build a reputation for providing high performance, easy to use, innovative, simple products that provide our customers with "Best Installed Value".

All Hansen products carry our Lifetime Warranty*
