

250 LITRE PIT

Application

The Spiez 250 litre underground pit is a small, durable pit used to collect water and wastewater below ground level. Made from robust high-density polyethylene (HDPE), it safely houses pumps, valves, and pipes for all applications.

Technical Specifications

SKU: SP250

Capacity: 250 Litres

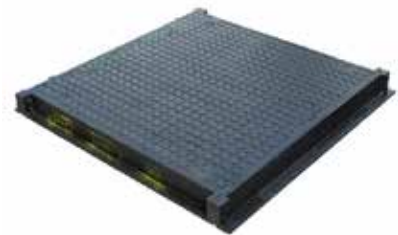

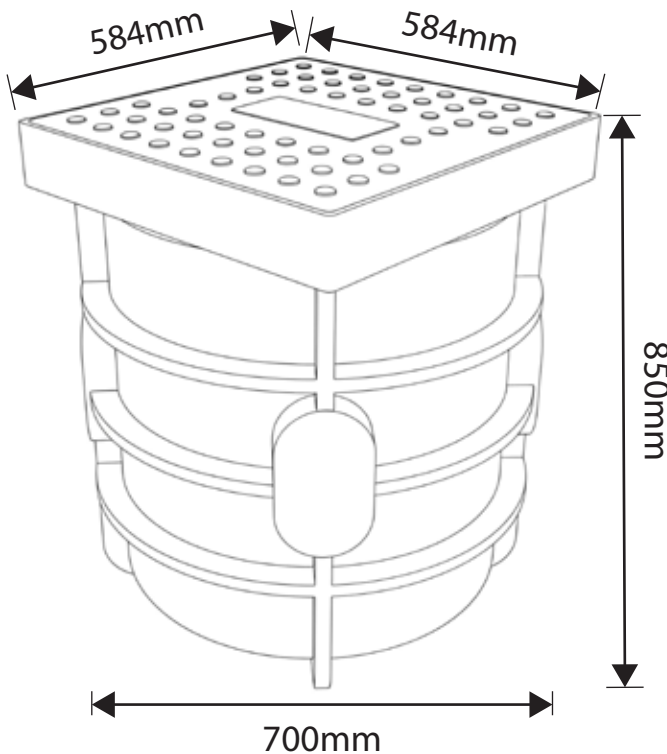

Tank Dimensions: 700Ø x 850H (mm)

Flat Area: 143W x 250H (mm)

PE Lid: 525L x 525H (mm)

Lid Options: Class A, Class B, Class D, Grated

Weight: 18 kg

Class B Solid Top [6x6SB]
Class D Solid Top [6x6SD]

Class B Concrete Infill [6x6CIB]
Class D Concrete Infill [6x6CID]

Class B Grated [6x6GB]
Class D Grated [6x6GD]
